N-400 Addendum: Page 7, Part 9, Question 3: Time Outside the U.S.

During the past five years, I made regular trips to Tijuana, Mexico, that are too numerous to accurately document with detailed dates. These trips were for the purpose of visiting my parents. I generally made the trip once a month; I would usually cross the border on a Friday and return to the U.S. on a Sunday. During the last five years, I estimate that I made 50 trips that lasted 2 days per trip. Therefore, I am estimating that I spent a total of 100 days outside the United States for this regular trip.
